

Call for Student Participation Grants

We are pleased to announce the availability of a number of Student Participation Grants for the IEEE SOCC 2024 conference. Supported in part by the National Science Foundation, these competitive grants aim to help offset the costs associated with attending and participating in the conference. Each grant, \$500 to \$1000, can be used to cover expenses such as travel, registration, and lodging.

Purpose of the Grants

These grants are intentionally termed Participation Grants rather than Travel or Attendance Grants. They are designed to support students' active involvement in conference activities throughout the entire event. This includes attending technical presentations, giving lectures, participating in tutorials, and interacting with other participants during breaks and organized activities.

Eligibility and Preferences

- **Eligibility:** Authors, presenters, and just attending students are eligible to apply. For the purposes of these grants, a student is defined as anyone currently enrolled or who was a student when the presented work was conducted..

Application Process

To apply, students must submit:

1. A completed application form and email it to Dr. Magdy Bayoumi.
2. A personal statement (up to 500 words) detailing their interest in SOCC 2024 and how participation will benefit their academic and career goals.
3. A supporting letter from the advisor

If you have any questions regarding the grants or application form, please feel free to contact Dr. Magdy Bayoumi: magdy1112@yahoo.com

The deadline for full consideration is **August 31st**, but later applications will be considered if all grants are not awarded by those received by the full consideration deadline.

Application

Name:

Academic Institution:

Address:

Telephone number:

Email:

a) Will you be physically present at the conference?

b) Are you an author for at least one paper (in either lecture or poster format)?
